

Visit to the Moldovan Republic Early Intervention Center „Voinicel”

Representatives of the Inocenti Foundation, Bistrita and of it's partner, DGASPC Bistrita Nasaud, went on a study visit to the Early Intervention Center Voinicel, during 26-27 May 2014. The management teams and specialists toured the Center and took part in discussions regarding how the Early Intervention Program is integrated into the local social and medical services of the community and the function and structure of the Program.

On returning to Bistrita, this information regarding the principals of early intervention was reviewed by the Inocenti Foundation and DGASPC specialists in preparation for the opening of a new Early Intervention Center for disabled children, in Bistrita.

Thanks to our hosts!

Activities took place within the „Early Intervention for the disabled child” The project is funded through the EEA Grants 2009-2014 under the NGO Fond in Romania (www.fondong.fdsc.ro).
